

Enjoy Your Gas Fireplace

Electrification policies could impact your home.

Natural gas is reliable and comforting.

It's comfortable and provides an unbeatable ambiance around your fireplace that can't be beat by a heat pump.

Natural gas fireplaces work even if the electricity goes out.

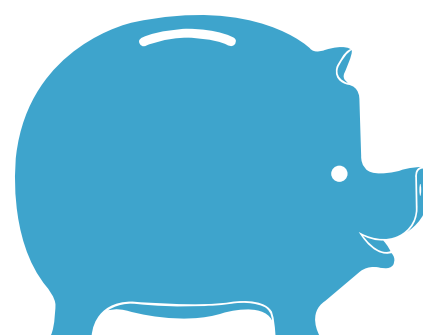

Natural gas is the primary fuel source for electricity generation.

Natural gas is affordable.

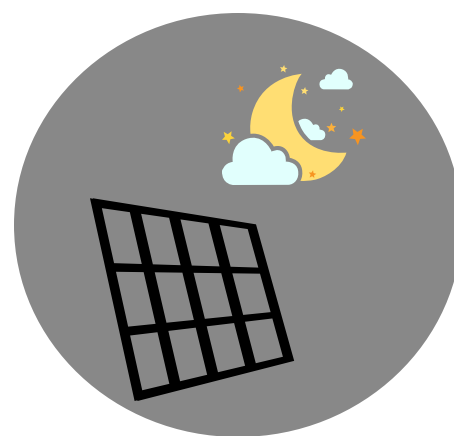

Natural gas costs the same...

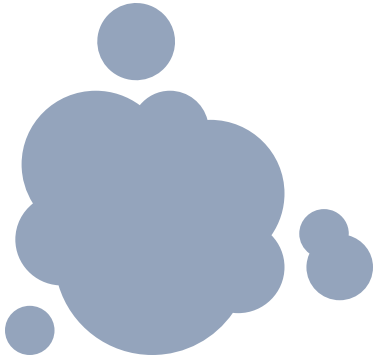

No matter what time of day.

Technology hasn't yet caught up with the needs of renewable energy.

Solar is plentiful and cheap during the day while away from the home, but when you come home in the evening, it's just not as available.

	1.5 million Massachusetts households rely on natural gas.
	Natural gas is helping reduce emissions.

Energy demand spikes in the evening.

This causes the central power plants to work hard to meet demand and the cost of electricity to increase.
